

Non-hazardous Materials List

This list includes the following categories:

- Growth media (e.g. agar, DMEM)
- Non-toxic buffer solutions (e.g. PBS)
- Aqueous stains and dyes
- Dry milk, water, gelatin, vegetable oils, mineral oil, and other edible products
- Amino acids and salts (e.g. asparagines, alanine, lysine, serine)
- Sugars (e.g. agarose, maltose, dextrose)
- Hand soap, lotion, etc.

The following substances are also not to be included in the inventory:

- Activated charcoal; activated carbon
- Albumin
- Bath Clear (fisher water bath solution)
- Boileezers
- Boric acid; borx
- Drierite (calcium sulfate, anhydrous)
- CAPS
- CHAPS
- Dextran blue
- DNA; RNA
- Ecoscint (A,H,O)
- EDTA
- EGTA
- Fuchsin
- Glycerin
- HEPES
- IPTG
- Magnesium acetate
- Wescodyne
- Magnesium chloride
- Magnesium sulfate
- MES
- Molecular sieves
- MOPS
- Paraffin
- Peptone
- Polyethylene glycols
- PIPES
- Potassium acetate
- Potassium phosphate
- Tween 20
- SDS
- Sodium citrate
- Sodium phosphate
- Sodium chloride
- Tryptone
- Urea
- Yeast extract
