

## Join the CCTS!

UAB serves as the “Hub” for the CCTS Partner Network, which is funded by the National Center for Advancing Translational Sciences (NCATS) at NIH. As one of more than 50 such centers across the country, the CCTS offers you a wealth of resources to help advance your science and your career.

### Here are just a few of the many supports available to you through the CCTS:

- Multisite study opportunities via SHARe, TriNetX, and other CCTS partnerships
- Advanced proposal reviews by a team of experts via Project Panels
- Skills-building trainings, like our popular Accessing Clinical Data for Research with i2b2
- Special funding opportunities, including our CCTS Interdisciplinary Network Pilot, Research Vouchers and Mini-Sabbatical programs
- Regulatory expertise to guide you in meeting the latest federal research policies, such as the NIH ClinicalTrials.gov and Good Clinical Practice (GCP) requirements
- Methodological expertise to ensure your grants meet NIH Rigor, Reproducibility, and Transparency (R2T) review criteria
- Samples of successfully funded NIH, NSF, DoD, and foundation grant applications in our Grant Library
- Biomedical informatics and data analysis support and collaboration
- Entrepreneurial workshops based on NSF I-Corps™ Lean Startup Methodology
- Drop-in clinics and consultations with experts from our Bionutrition, Biorepository, Clinical Research and BERD (Biostatistics, Epidemiology, and Research Design) units
- Research training fellowships and certificate programs for professional development across the career arc
- Community-based research events and programs
- A wealth of cutting-edge knowledge on the CCTS YouTube Channel

 cctsnetwork

The CCTS is here for you! We look forward to working together to enhance the translation of basic and clinical research into improvements for human health and to reduce the burden of disease and health disparities that disproportionately affect populations in the Deep South region.
