Depart for BLZ	10:00	

### **2019 Research Group Members (Tentative):**

#### **Analysis:**

Charles Chidume – African University of Science and Technology  
 Geraldo De Souza – Auburn University  
 Ur Koumba – University of the Free State  
 Tshukuto Lukoto – University of Limpopo  
 Magadi Mabe – University of Johannesburg  
 Mokhwetha Mabula – University of Pretoria  
 Cylda Masinga – University of Pretoria  
 Sello Mbambo – University of the Free State  
 Chibueze Okeke – University of Johannesburg  
 Andre Swartz – University of Johannesburg

#### **Biostatistics:**

Nicholas Adam – University of Malawi  
 Tsirizani Kaombe – University of Malawi  
 George Luwanda – Mzuzu University  
 Samuel Manda – South African Medical Research Council  
 Precious Mdlongwa – Botswana International University of Science and Technology  
 Wilfred Monyoro – Kenyatta University  
 Rosaliah Mughogho – Mzuzu University  
 Bernard Omolo – University of South Carolina Upstate  
 Geoffrey Singini – University of Malawi  
 Halima Twabi – University of Malawi

**Graph Theory:**

Alex Alochukwu – University of Johannesburg

Paul Horn – University of Denver

Peter Johnson – Auburn University

Khumbo Kumwenda – Mzuzu University

Kondwani Magamba – Malawi University of Science and Technology

Katherine Perry – Soka University of America

Adam Purcilly – University of Denver

**Mathematical Biology:**

Ash Abebe – Auburn University

Javier Arsuaga – University of California, Davis

Eduard Campillo-Funollet – University of Sussex

Faraimunashe Chirove – University of KwaZulu-Natal

Hannah Correia – Harvard University

Steve Dobson – Auburn University

Levis Eneya – University of Malawi

Matthew Foster – Fitchburg State University

Ben Levy – Fitchburg State University

Edward Lungu – Botswana International University of Science and Technology

Joseph Malinzi – University of Eswatini

Theresia Marijani – University of Dar es Salaam

H. John B. Njagarah – Botswana International University of Science and Technology
