

MEDICAL WASTE SATELLITE ACCUMULATION AREA

REQUIREMENTS for TEMPORARY LABORATORY STORAGE of REGULATED MEDICAL WASTE.

Medical Waste containers must be clearly marked with words “**MEDICAL WASTE**”, “**INFECTIOUS**”, “**BIOHAZARDOUS**” AND/OR the **BIOHAZARD SYMBOL**

ALL Medical Waste Containers must be **RIGID, SEALED** and **IMPERMEABLE** to moisture.

SHARPS CONTAINERS must be **LEAK PROOF, RIGID, PUNCTURE-RESISTANT** and **SEALED**.

Small Medical Waste containers may be placed inside larger Medical Waste containers consistent with the above requirements.

- Outside of containers must be reasonably **clean**.
 - Do not put trash or other waste into Medical Waste containers.
 - Do not place broken laboratory glassware into a sharps container.
 - Do not accumulate more than 10 large (15 gallon) sharps containers or more than 5 large (15 gallon) and 10 small containers at any one time.
1. Store Medical Waste in a designated Medical Waste Accumulation Area.
 2. Complete a Medical Waste Internal Manifest for each group of Medical Waste containers prior to scheduling a pick up. Attach the manifest to the waste container by a single piece of tape in such a way that it is easily removed.
 3. Call or email for a Medical Waste pick up:
